

French Program Resumes Thursday

October 6th

Little Kids Daycare has collaborated with French 4 toddlers to provide French instruction to our children 2.5-5 years of age.

Madam Julie will be at the center on Thursday mornings, she will teach in the Senior class before moving on to the Juniors.

Madam Julie teaches early French language education in a playful manner, fostering early cognitive development & to promote bilingualism to Canadian Children.

The program is designed in themes relevant to children. Each theme is divided into 8 sessions. At the end of 8 sessions, children will have been exposed to at least 60 new words & short sentences. Each class works like building blocks to maximize retention in young children. All lesson plans follow the same structure, establishing a routine for children and reinforcing repetition.
